THE ESSENCE OF NATURE

ACTIVE INGREDIENTS:

Libifem®

Fenugreek extract. Its effectiveness has been confirmed by research on strengthening sexual desire and increasing libido in women.

Ashwagandha

An excellent adaptogen which improves mental health, makes it easier to relax, enhances resistance to stress and increases energy levels.

Maca

An aphrodisiac from the Andes which stimulates fertility, helps maintain natural sexual activity and energy, supports the hormonal system and is a source of phytoestrogen.

Damiana

A natural aphrodisiac which supports mental health under conditions of stress and nervous tension and contributes to an increased sex drive.

Saffr'Active®

Saffron makes it possible to relax and stay in a positive mood. It also stimulates libido and increases comfort during menstruation.

Bioperine®

Black pepper supports the health of the female reproductive system and increases the absorption of the remaining active ingredients of the product.

Zinc

An indispensable mineral which helps maintain normal fertility and reproductive functions and protects cells against oxidative stress.

100% natural extracts and organic zinc.

Estradiol (E2) regulates the menstrual cycle and the development of female reproductive organs. Apart from its effect on the reproductive system, estradiol regulates bodily temperature and **affects women's libido, as well as their mental and emotional state.**

Libifem® increases the value of estradiol in the body!
