

Indications

- Improves overall mental fitness/ enhance cognitive function
- Extract of proprietary, wild variety of oat herb selected for its superior biological activity profile
- High purity and stability
- Validated, PIC-GMP/ISO certified, Swiss quality production
- Efficacy and safety confirmed by clinical studies
- Co-branding opportunities

Clinical results show that Neuravena® positively influences brain activity during stressful situations in line with improved cognitive performance.

Description

Green oat preparations have traditionally been used in treating fatigue, poor concentration and irritable mood since medieval times. Using a bioassay-guided development approach Frutarom has scientifically substantiated and confined this effect for a selected green oat variety.

Scientific evidence

Due to its dual activity profile on Monoamine Oxidase B and Phosphodiesterase 4, two CNS (Central Nervous System) enzymes closely linked to mental health, Neuravena® has a strengthening and balancing effect on the brain and mind.

EFLA®HyperPure, Frutarom's highly selective, proprietary process technology, ensures a high degree of purity, good solubility and improved stability.

Harvesting

Green, rapidly dried aerial parts of *Avena sativa* L. harvested just before it is in full flower. Prepared from Neuravena® a wild type variety of *Avena sativa* L., scientifically selected for its superior bioactivity profile. Contract growing and selected harvesting.

Product information

Standardized	Flavonoids (calculated as Isovitexin) \geq 0.3 %
Type of extract	Powder
Dosage	860 mg/day
